This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

INTRODUCTION.

Early in the month of May, 1666, a few small vessels entered the Passaic River and steered their course towards the uplands that loomed in the distance towards the west. The low meadows, through which the river winds its way to its confluence with the Hackensack, must have possessed then, as now, little that was picturesque or attractive, although those on board the vessels referred to may have estimated the "plains of good Hay of 50 acres of Ground, with hardly one tree to be seen upon the whole Spot—and several Places so," as highly as did the early settlers elsewhere in New Jersey, who pointedly alluded to them as among the natural objects that wooed them hither. But the higher land beyond, to which the voyagers were destined, then lying in all its original beauty, varied with hill and dale, plain and forest, must have presented so many unmistakable advantages for the location of a town, that it is not remarkable they should have looked towards it with bright anticipations; although we cannot reasonably suppose that the most sanguine among them, when their thoughts rested upon the probabilities of the future, ever fancied results so great as have flowed from the settlement they were about to make—for these vessels bore to New Jersey the pioneers of those who founded NEWARK.

Since then, while Time has been unrolling his eventful scroll of nearly two hundred years, the successors of the first-comers have diligently labored to cover the site selected for their "town upon the Passaic River" with all the utilitarian adjuncts and appliances which the world's progress has ren-

dered essential to the comfort and happiness, physically and mentally, of a population of 80,000 souls. Success has crowned their labors, and the New Jersey Historical Society present in this volume, the official record of the public measures by which the first adventurous spirits and those who came after them, secured good order, peace and prosperity from the settlement of the town until its incorporation as a City in 1836; confident that the duty thus performed cannot but prove serviceable to the people of the State through all time.

In the month of August, 1665, PHILIP CARTERET—the commissioned governor of his brother Sir George Carteret and Lord John Berkley, the first proprietors of New Jersey under the grant from the Duke of York—arrived in the Province on board the "Ship Philip," bringing with him "about thirty people," who, with four families who had arrived a short time previously, formed the nucleus of the settlement at Elizabethtown. Immediately after his arrival, the governor despatched messengers into New England to publish "the Concessions," so called, of the Lords Proprietors—being the terms upon which settlers would be admitted—and to invite emigrants to the rich and virgin soil of New Jersey.

The propositions of the governor appear to have received immediate attention from the people of Milford, Connecticut, and ROBERT TREAT, a prominent man among them, and subsequently governor of that province, was delegated, in conjunction with others from adjoining plantations, to visit New Jersey and examine into its actual and prospective advantages. Their first intention was to settle on the Delaware river, near the present site of Burlington, but not being favorably impressed with that location they returned to Elizabethtown, and were induced by Gov. Carteret to select lands lying north of that place. Some negotiations had already taken place with the aboriginal owners looking to the acquisition of the tract, and

the governor furnished Mr. Treat with a letter to their chiefs, requesting them to perfect the sale directly to him.

These arrangements must have been made in the autumn of 1665, but no interview with the Indians seems to have taken place at that time. The following Spring, as we have seen, the vessels bearing the first company of settlers, arrived in the Passaic. "But," said Mr. Treat, twenty-three years thereafter, "no sooner was the company present got on the Place and landed some of their goods, than I with some others was by some of the Hackensack Indians warned off the Ground, and [they] seemed troubled and angry that we landed any of our goods there, tho' first we told them we had the governor's order; but they replied the land was theirs, and it was unpurchased; and therefore we put our Goods on board the vessels again and acquainted the Governor with the matter."* This conference with the governor, and subsequent negotiations with the Indians, led to the purchase and quiet possession of the lands; although in after years a disinclination on the part of many of the settlers to obtain from the Proprietors the confirmation of their titles by Patents for the property, was the occasion of many disorderly acts and harrassing legal proceedings.

It was while these preliminary measures were being taken that the meeting was held, either on board of one of their vessels, or on the land "near to Elizabethtown," on 21st May, 1666, the result of which may be seen in the opening document of the records, providing for the common occupancy of the new tract by the people from Milford, Guilford and Brandford, should the latter so determine before the ensuing November. It is thought that the first party consisted of about thirty families, but it is probable that only a few remained on the ground the first summer.

On the 30th October of the same year, 1666, the inhabitants

* Elizabethtown Bill in Chancery, p. 118.

of Brandford, previous to embarking, formally acceded to the propositions for a common interest in the new "Town upon Passaic River," and those already on the ground subsequently joined in committing themselves to the "Fundamental agreements," which are on the second and subsequent pages of the book.

As yet the name of the new settlement does not appear in any of the documents, but it seems from "Scot's Model of the Government of East Jersey" (p. 274) that it was probably at first known as "*Milford;*" but on the arrival of the people of Brandford, bringing with them their Church organization, such pre-eminence in the councils of the new settlement was secured, that the name of Milford was dropped and that of NEWARK conferred upon the town, in honor of the Rev. Abraham Pierson, their pastor, who had officiated, or been ordained, at Newark, in England.

To Robert Treat, the first Recorder or Town Clerk, we are probably indebted for the preservation of the documents relating to the settlement from its commencement until 1672, when he returned to Connecticut; and the Treasurer, as ordered by the Town in 1669, provided a Book, which is still extant, in which Mr. Treat commenced the "Record of Lands." The irregularity observable in entering the proceedings of several Town Meetings in the Town Book is probably attributable to the inadvertence of Mr. Treat's successor on copying his papers.

In 1775, Joseph Hedden, Jun'r, agreed with the Town to purchase a Bound Book in folio, and to "transcribe the old Town Book into the new one," in a legible fair hand. This volume contains the Minutes of Town Meetings in Newark from 1667 to 1775, as found in that book, with the exception of the Meetings from April 12th, 1714, to March 8th, 1714–15, which are omitted in that transcript. These are from the original record made by John Cooper, Town Clerk, of which

a few leaves relating to the following year are lost. The Town Patent of 1713, and also the Survey given in the Appendix, are printed as recorded by him.

From 1775 to 1832 we have the books as written up by the several Town Clerks, and it has been thought proper to follow the originals as nearly as possible in orthography, abbreviations, capitals, and punctuation, except in the transcript from the old book, in which some additional pointing seemed necessary. In a few instances, an explanatory word or name has been introduced in brackets. The first part of the transcript, or about six pages of this volume, was printed in November, 1834, in the Newark Daily Advertiser, at which time the first leaf containing the names of the signers of the fundamental agreement was mislaid. In the substituted one, the name of Zachariah Burwell is omitted. It is now restored to its place as then printed, and as the Indian and the English Proprietors' Deeds, given in the Appendix, have been carefully compared with the record in the office of the Secretary of State, it is believed they are as near correct as they can be made, as the depositories of the originals, if they are yet in existence, are unknown.

This brief introduction to the contents of the volume is all that has been deemed necessary. It would have been rendered of more interest to the general reader, and more useful in some respects, had it been accompanied by notes and explanations, but it was thought more consistent with the objects of the Society, to place the Records in the hands of the people of the State in their original form, leaving to individual enquirers the developement of obscure events or contemporaneous matter. The Genealogical and local information it contains must render the volume exceedingly acceptable, not only to all in any way connected now with the city to whose history it particularly refers, but also to the inhabitants of a large portion of the State of which Newark is the centre, whose population

and business relations, whose customs and manners, as well as their political and religious opinions, have been in a great degree drawn from it, or been framed in accordance with the influences it may have exerted in the past.

The labor and responsibility of superintending the passage of the work through the press devolved upon Mr. WILLIAM A. WHITEHEAD, the Society's Corresponding Secretary, and Mr. SAMUEL H. CONGAR, its Librarian. The Table of Officers in the Appendix, and the Index to the Contents were contributed by the former, and to the latter was deputed the difficult task of reading the proof sheets. It is due to Mr. Congar to say that by no other person could the duty have been so faithfully and intelligently performed, his intimate acquaintance with names, localities and circumstances connected with the town and its history, enabling him to solve doubts and correct errors, where another person would have been entirely at fault.

The Map appended to the volume shows the extent of the town at two periods, being lithographed from a photographically reduced copy of one published in 1806, from surveys made by C. Basham, then principal of the Newark Academy, with additional lines, showing the first home-lots of the settlers.

It appearing to the Heirs and Descendants of the first Settlers of Newark, Inhabitants of s'd Town, That the Proprietors of the Eastern Division of the Province of New Jersey, by their Governor and Council by Letters Patent dated the 10th Day of December, Anno Dom. 1696 did grant to John Curtis, Robert Young and others, sundry Tracts of Land Lying in Newark for the Uses and Purposes therein mentioned; among which several Lotts and Parcells of Land and one Lott of Meadow were granted, for the Use of a Parsonage—And that since the granting the s'd Letters patent, the Heirs and Descendants of the first Settlers of s'd Town of Newark have divided into three several Societies within s'd Town for public Worship of God, distin-

guished by the Names of The Church of England, The first Presbiterian Society, and the Mountain Society—and that many Disputes have frequently arose among the Heirs and Descendants of the first Settlers of New-Ark, relating to the property of said last mentioned Lands and Meadow, whereby the real Benefit and Advantage which might otherwise be made of the same is greatly obstructed and hindered—and that at a Town Meeting held at Newark afs'd, In March last, during the Time of the Small Pox being in Town, and when but very few of the Inhabitants were present, and without any previous Notice being given to the Inhabitants of said Town of any Intent of their passing a Vote relating to said Lands called the Parsonage Lands—it was then and there voted by the majority of the few then present, that Application should be made to One David Young, Heir to the Surviving Trustee mentioned in said Letters Patent, to obtain a Deed for the same Lands last mentioned to the Committee or Trustees to the first Presbiterian Society or Congregation, and that a Deed was accordingly obtained for the Use of One Society Only, which has given great dissatisfaction to the Inhabitants of said Town in general. 1st, That said Deed, so obtained as afs'd from David Young Heir of the Surviving Trustee mentioned in s'd Letters patent, is contrary to the real Intent and Desire of the majority of the Heirs and Descendants of the first Settlers of Newark, and to the Spirit and Design of said Letters Patent, and against the Use intended to be thereby granted.

2ndly, That as the Heirs and Descendants of the first Settlers of Newark have three Societys or Congregations for the publick Worship of God—each having a distinct or separate Minister to support—It is voted and agreed, that the said Lands granted by said Letters patent to lye for a Parsonage be equally divided in Quantity and Quality exclusive of the Improvements made thereon, among said Three Societies or Congregations.

3rdly, It is further voted and agreed, that John Cundit, Bethuel Pierson, Daniel Pierson Esq'r, James Nutman, John Crane and Elijah Baldwin, or any four of them be Agents to divide and allot said Lands to said Societies or Congregations in manner afs'd, and when so divided and allotted to apply to the Governor, Council and General Assembly, to confirm the same by a Law to be made for that Purpose to each Society, agreeable to s'd Division for the Use in s'd Letters Patent mentioned.

John Cundit, Bethuel Pierson, Daniel Pierson and James Nutman, four of the Persons appointed by a vote of the Inhabitants of this Town of Newark, at their last annual Meeting on the Second Tuesday in March Last, for the dividing of the Parsonage Lands and Meadow Belonging To s'd Town, Made their Report this day of their Haveing so far Executed the Trust in them Reposed as to make a Division of s'd Parsonage Lands and Meadow, which report was read at the Publick Town Meeting held this Day for said Town, and approved of and Confirmed by a majority of the Inhabitants of s'd Town at their s'd Meeting, subject Nevertheless to such Alterations as is herein After Mentioned: which Report is in the Words following, viz: the Question being Put, whether the s'd Agents for the Town, or any four of them might receive and Consider the division by them made as afs'd, and Hear such Objections thereto Against the Equality thereof as any Person or Persons shall think Proper to offer—and Make all Reasonable Alterations—it was Carried by a Vote of the Majority of s'd Town, that the s'd Agents for the Town or any four of them Shall and May have 4 Months from this Time to Hear the Objections of any person, or persons within s'd Town, who shall Think themselves Grieved Against the Equality of s'd division, and make such alterations therein as shall Be Just and Equal; and that After the Expiration of s'd four Months, the s'd division now Made or such other division as shall within that Time Be Agreed on as afs'd, the s'd agents or any four of them are requested by the Inhabitants of s'd Town to Take all Proper Measures to make Effectual and Binding on all Parties.

A Number of the Principal Members of the first Presbiterian Church in New Ark Objected Against it, and Insisted upon it that the Men was Not Legally Chosen—that the Vote pass'd Last Annual Town Meeting was not fairly obtained —a Majority being at that Time on the Negative, and that there was at Least Two Hundred Persons present at the Town Meeting in March 1760, when the Vote about the Parsonage was so Unanimously Obtained, &c. However, upon Mr. Ogden's and some others strongly urging and repeatedly insisting upon it, the Moderator put the Vote and it was carried in the negative by a majority of those present, it being a very full Town Meeting, (viz): that the Division should not be confirmed even with the Limitations above mentioned.

Memorandum—William Camp and Eleazer Lamson were proposed to be elected Freeholders, as were also the before mentioned Isaac Longworth and Abraham Ogden; the mode of election was the same as used on the Election of all the other officers at this Meeting, (viz): by holding up of the Hands and the majority appearing clear and indisputable in favor of said Mess'rs Longworth and Ogden, the Moderator directed their being elected Freeholders to be entered by the Clerk on the Minutes—which was accordingly done. Soon after, Nathaniel Camp the Father of said William Camp, seconded by others, objected to the above Election and proposed William Camp and Bethuel Pierson Candidates for a new Election; and that the same should be determined by poling or going down in the Street, and seperating and counting the Votes for the different Candidates—which was waved by the Moderator as the former Election appeared perfectly clear and conclusive, but on the matter's being insisted upon ordered that the remaining Business of the Meeting should be first gone through, and that then any reasonable Objections against the above of the Freeholders should be heard—which being done, the above Proposal of going down into the Street was again moved for—but the afs'd majority who had voted for the s'd Mess'rs Longworth and Ogden, conceiving any Election set aside the first (so clearly determined) would introduce the greatest Confusion in Town Meetings, as there would be no end to electing so long as any one Person remained dissatisfied and had any other Candidate to propose, and therefore, they conceiving the Business of the Meeting to be finished departed. However, great part of the remaining Inhabitants went into the Street, and the Majority of the said remaining Inhabitants voted that s'd William Camp and Bethuel Pierson should be Freeholders.

The following was read and unanimously agreed to—

It is taken for granted, that the Issuing of Paper Money upon Loan would be of great advantage to this State, Especially to the eastern Division of it and a Bill for this Purpose has passed the

House of Assembly, which is now before the Council for their Concurrence: but it is said, that it is not like to pass in its present Form.

We shall therefore be deprived of the Advantage of a Paper Currency, unless a Compromise should take place.

And a Compromise has been proposed in the Council or between the Council and Assembly, which is this—

That the Holders of Certificates should be entitled to borrow the Money upon their Public Securities, in the same manner as Land-Holders will be Entitled to borrow Money upon their Lands, or that a certain Proportion of the Money should be appropriated to the payment of the Interest of Certificates, and thus all the Inhabitants of the State will have an Equal Chance of being benefited by the Money.

It is well known that the Part of the State where the Army lay, hold more Certificates than the Western Division do, and therefore it is supposed, that if a Measure of this Kind Should be adopted, it would be of peculiar advantage to the Inhabitants of this and the adjacent Counties, who performed more services and afforded more supplies for the Army of the United States, than all State besides, and therefore it is probable that they have more Certificates. Some of our Representatives request that their Constituents would instruct them upon this Head, that they may know how to conduct themselves in this Business, as they look upon it a matter of great Importance in which the County is deeply interested. It is therefore proposed and requested, that the following Vote be put—

Whether in the present situation of Affairs, this Town Meeting approves of our Representatives in Council and Assembly consenting, that a Law should pass Entitling the Original Holders of Public Securities to borrow the Money to be Emitted upon Loan, they giving their Certificates for Securities in the same manner as Land Holders shall be Entitled to borrow money by mortgaging their Lands.

AMOS HARRISON, Moderator.

J. Parkhurst, Town Clerk.

At a Special Town Meeting duly called by advertizements according to law, for the purpose of "Enquiring into the encroachments made on the Public Lands and Highways within the

Township of Newark, and to consider of, and determine on the propriety of prosecuting the persons who have made encroachments on the said Public Lands and Highways within the Township of Newark, and for making provission for defraying the Expences of such prosecutions."

Amos Harrison Esquire was chosen Moderator, and Jabez Parkhurst, Clerk.

The Committee appointed by the last annual Town Meeting to make Enquiry relative to the Encroachments made on the public lands and Highways &c. made report in the following words, Viz:

"The Committee appointed by the last annual Town Meeting in April, to make Enquiry relative to the Public Lands and Roads in the Town of Newark, and the Encroachments made thereon, Report—

That the first Inhabitants of the Town purchased all the lands of the Indian Natives, and held and possessed the same for a considerable time without any other title. During this possession they divided off to each Individual Inhabitant such part as reasonably fell to his Lott according to agreements made with the whole, which divisions were usually confirmed by a Vote of the Town Meeting, and Entered in the Town Book now in the possession of the Town Clerk.

That besides the Grants to Individuals the Inhabitants of the Town—Reserved to themselves for certain public purposses—In the first place, Large Extensive Roads without any precise dimensions to the same, varying according to local circumstances in many cases arising from the broken situation of the ground, and often exceeding Eight Rods in width. In the Second Place—Large pieces of ground for sundry public purposses such as a "Parsonage"—"Burying Ground"—"Training place"—"a Market Place"—and "a Watering place" and in fact all the lands not particularly and specifically given to some Individual were reserved to the use of the Town. After this occupation and possession of the Lands for a considerable time by the Inhabitants of the Town, the Eastern Proprietors set up a right to the Lands, and demanded of the Inhabitants a quit Rent for the same.

This demand was however resisted with great Spirit by the Inhabitants, who refused to pay the quit rent and they were finally abandoned by the Proprietors. But notwithstanding this many of the Inhabitants thought proper to obtain from the Proprietors Grants or Patents for their Lands; And, the Inhabitants of the Town in the Year 1695 or '96 took of the Proprietors a Patent for their Reservations including Roads of uncertain dimensions in the name of Certain Trustees.

The Committee cannot learn that the Proprietors Ever granted any Lands adverse to the original Division made by the Inhabi-

tants, nor adverse to their Reservations, nor in any way to disturb the Inhabitants in the disposal of their Lands according to their Original plan under the Indian purchases; but only granted Patents for the confirmation of the original lots as previously sett off and allotted to each Individual.

That on the beforementioned Public Lands and Roads so as aforesaid reserved by the Inhabitants and confirmed by the Patent from the Proprietors, Individuals have been constantly making Encroachments.

The Lands thus Encroached upon being Enclosed with the Antient Lotts, it is in many cases difficult to ascertain the ancient boundaries, the Land Marks in many Cases being destroyed or removed.

But many Encroachments are so recent as to be Easily ascertained, and the Land Marks precisely traced, described and ascertained—Especially where Encroachments have been made on Public Lands and in many cases on Public Roads.

The Committee think that the encroachments on and about the Antient Watering Place are wanton and without a shadow of Right, that some of the Trespassers Emboldened by the remissness of the Inhabitants openly avow their intentions to maintain and defend not only their former Encroachments; but threaten to fence in the whole of the Public Lands and set the Town at defiance.

It is with pain the Committee observe that the manly and En lightened policy of our Ancestors in providing Lands for Public uses and Capacious Streets, at once calculated to preserve the Health of the People, and to adorn, beautify, and render commodious the Town, has been greatly circumscribed by the narrow and selfish dispositions of some of their Descendants and the shameless avarice of more modern Settlers.

SAM'L HAYES,
WILLIAM S. PENNINGTON,
STEPHEN FORDHAM.

Which Report having been read—The Meeting Resolved unanimously,

1st. That the Township Committee of the Township of Newark are hereby authorised to prosecute in behalf of the said Township, any person or persons who have made encroachments on the Public Lands and Highways and, also all those Persons who may hereafter encroach on the same.

2nd. That the said Committee be authorized in such cases as they think proper and beneficial to the Town, to consent on the part of the Town to settle Controversies relative to the Public Lands and Roads, by Arbitration or Reference.

3d. Resolved by a very large majority—That the sum of Two Hundred pounds be raised and assessed on the Inhabitants of the Township of Newark the ensuing year, to be appropriated to the purpose of prosecuting for the privileges of the Town, viz: for the recovery of such Common Lands and Highways as are encroached on, as far as the appropriation of the same shall be found necessary.

Whereas the Legislature of this State by a Law passed on the thirteenth day of March Eighteen hundred and Six, did authorize the Inhabitants of the several Townships at their Annual Town Meetings to order to be levied, Assessed and Collected, such tax on Dogs, in addition to the Tax already imposed by Law—and to make such other by laws as a Majority of each Town Meeting may deem expedient for the protection of their Sheep.

Therefore 1st be it enacted by the Inhabitants of the Township of Newark in the County of Essex, that the Assessors of this Township shall at the Time of Assessing the other taxes for

the use of the Township, County, or State, assess every Master or Mistress of any family in which a Dog or Dogs of six months old and upwards are kept whether by themselves or any Child, Servant or other person whomsoever, the following sums of money, viz: If only one Dog is kept by one family, One Dollar. If two Dogs are so kept, five dollars and for every Dog so kept above two, the further sum of twenty dollars, which Tax shall be construed to include the Tax heretofore authorized by law, and shall be collected at the same time and in the same manner in every respect, with the other Taxes raised in the Township, except that the Assessor and Collector shall be each intitled to six cents for every Dog returned in the Duplicate agreeably to this Act.

2d. And be it enacted that if any person shall deny that he or she have any property in any Dog so assessed in his or her name, or shall refuse to give a fair account of the number or age of the Dog or Dogs to remain about his or her house, he or she shall be deemed to be the owner of such Dog or Dogs and be liable to the payment of the Tax aforesaid, and moreover shall be liable to a fine of ten dollars for every Dog so harboured and not returned to the Assessor when by him required, to be recovered before any Justice of the peace in this Township by the Collector of the same, and to be applyed as is herein after directed.

3d. And be it enacted, that the amount of the said Tax after deducting the charges of Assessing and Collecting the same and all fines which shall be recovered by virtue of this Act, shall be appropriated, exclusively to making good any losses sustained by the Inhabitants of this Township by the destruction of their Sheep by Dogs where no legal remedy can otherwise be had for the same: and for this purpose, the ballance of this fund which may remain unappropriated in the hands of the Collector at the expiration of his office, shall be paid to his successor, or shall be placed at interest to form a permanent fund to be applyed exclusively to the object contemplated by this Act, at the discretion of the Township Committee.

4th. And be it enacted, that where any Inhabitant of this Township shall sustain damages by his or her Sheep being killed by Dogs, it shall be Lawful to call on two respectable freeholders of the Township who shall view the Sheep so killed, and if it shall appear to their satisfaction that the said Sheep were killed by a Dog or Dogs, and that the owner of such Dog or Dogs cannot be discovered, the said viewers shall make return in writing to a Justice of the peace of this Township of such their belief, together with the damages appraised by them on oath or affirmation, which said Justice shall under his hand direct the Collector of the Township to pay the amount out of the monies specially appropriated for this purpose, if he should have a sufficient sum

in his hands to pay the same—together with one dollar for the services of each of the said appraisers, and fifty cents for the services of the said Justice:—Provided that the person so claiming damages shall previously subscribe on oath or affirmation on the back of said, to be certified by the said Justice, that he or she doth not know by whose Dog or Dogs the damages was occasioned, and that whenever it shall come to his or her knowledge, he or she will give information thereof to the Collector of the Township whose duty it shall be to prosecute forthwith for the amount, and when recovered to apply the same as herein before directed.

5th. And be it enacted, that it shall be lawful for any Inhabitant of this Township who shall see any Dog chase, worry or wound his Sheep or Lambs, to kill such Dog; and if such person does not kill such Dog, and shall give notice thereof to the owner or possessor of such Dog, If such owner or possessor shall not kill, or cause the Dog to be killed within forty eight hours after such notice, he or she shall forfeit the sum of thirty dollars; to be recovered before any Justice in the Township by the owner of said Sheep or Lambs, to his or her use, with cost of suit.

6th. And be it enacted, that the Dog or Dogs meant to be subject to the Taxes and penaltys above named, shall extend to Dogs of all sizes and sexes.

Special TOWN MEETING For the Township of Newark was held at the House of J. A. Brittain, Agreeable to previous Notice on Wednesday *July* 16th, 1828.

Robert B. Campfield Esq'r was chosen Moderator. And Archibald Woodruff acted as Clerk. A motion was made to ascertain the sense of the meeting, wether they would proceed to the business for which they had convened, or Adjourn. When it was agreed to proceed. And the Town Committee made their Report, which was read by their Clerk, And is as follows:

In obedience to the vote of the last Annual Town Meeting instructing the Township Committee to purchase one or more Lots for a Town Burying Ground, the Committee gave it Early attention, and after considerably Enquiry and deliberation, purchased Two Lots of the Mrs. McWhorters, situated on the South Side of the Old Ferry Road, adjoining the land of Widow Aaron Harrison, as best adapted to answer the purposes of the Town both as to location and as to the Price required for the same.

The first Lot having a front of 250 feet on the old Ferry Road, Containing 8 Acres and 66-100, and Cost, at the rate of $90 an Acre. The other directly in the rear, and Adjoining the first Lot contains 5 Acres and 64-100, and was purchased at the sum of 80 Dollars per Acre. On the latter lot is a verry fine young apple Orchard now in bearing order. The aggregate sum paid for the Two Lots amounts to $1230 60-100 for the 14 Acres and 30-100 of an Acre. The same has been Deeded to an individual of the Committee untill the whole might be partitioned into a Square Lot, suited to accomplish the wishes of the Town. And here the Committee would beg leave to remark, that if our constituents are dissatisfied with the location, or the price Paid for the land, The Committee will cheerfully Exonerate the Town from the purchase, and take the same upon themselves.

As before remarked there are 250 feet front on the Old Ferry Road, as a matter of Economy to the Town, the Committee Resolved after throwing out 20 feet for a road on the East boundary of the first lot, to sell the remaining 230 feet for Building lots, which have accordingly been sold at about One Dollar a foot producing $230 for 17-100 of an Acre, Mr. Harris who ownes on the same line has also contributed 20 feet towards a road, so that

a Street 40 feet wide will be opened sufficiently spacious for all purposes of communication with the lot designed for the Public Burying Ground.

The Committee further remark that by drawing parallel lines from North to South in Order to make the lot Square, there will be a projection or strip of land on the Two sides of the Premises, which they propose to sell, still reducing the price of the original purchase.

The first is the marsh or low land west of Widow Harrison's House, containing 2 Acres and 48-100 of an Acre, which is not esteemed verry valuable. The other projection is in the rear of Wm. Harris lot, and contains 2 Acres 18-100 of thrifty orchard. The two together the Committee Estimate will bring not less than $300. So that the 8 Acres and 87-100 of an Acre, designed for a Burying Ground, (as may be seen by the Map herewith presented), will cost the Township about $700—after deducting the Building Lots sold, and the skirts of land still to be sold.

Signed By Order of the Township Committee.

WM. TUTTLE, Clerk.

Newark, July 16, 1828.

Resolved that this Town Meeting approve of the proceedings of the Town Committee, in procuring a lot for a Public Burying Ground, and of the purchase which they have made for that purpose, and that they be authorized and requested, to dispose of such part of the premises, as they may not deem necessary for the use of the Town for the above purpose—

Provided however that at least the Square containing Eight Acres 87-100 of an Acre, as designated on the Map submitted by the Committee be retained for the use of the Town.

Meeting adjourned.

The Town Committee laid before the Town Meeting a communication addressed to the said Town Committee by Nicholas Longworth, Esq., in behalf of the surviving sisters and Brothers and other heirs of Jabez Longworth, deceased, in relation to the supposed will of the said Jabez Longworth, deceased, of which communication the following is a copy, to wit:

To the Town Committee of the Township of Newark:

Gentlemen—The surviving Sisters and Brothers and other heirs of Jabez Longworth, Dec'd, (some of whom not only deserve to inherit his estate but are in limited circumstances) cannot but deeply feel interested in the result of the controversies likely to take place, between the Township of Newark and themselves, in relation to the validity and legal effect of the instrument of writing purporting to be his will. They verily believe that their deceased Brother and relative was not in such a state of mind, as to be capable of making a legal disposition of his property, and they feel confident that the inhabitants of Newark, if they knew the real circumstances of the case would not be willing, under the forms of law, even if it were certainly in their power to avail themselves of the supposed will, and thereby divert the property of the deceased, from a deserving widowed sister, and other near and dependent relatives, to the uncertain and indefinite objects of charity named or refered to in that writing.

But our Council, after a full and I believe an impartial investigation of the facts connected with that instrument, and the points of law arising in the case, have come to the conclusion,

1st. That were it possible to sustain the Instrument as a will, that the bequest to the Town cannot be sustained.

2nd. That if sustained and enforced the estate is so situated that The Town could derive no eventual benefit from it.

The bequest is limited in its object, and is so devised that many years must elapse before the Town could possibly (if at all) derive any benefit from it.

But they apprise me, that the nature and variety of the grounds of objection, and the numerous suits to which they would give rise—if the instrument purporting to be a will be proven, would subject us to endless Litigation in various Courts, where the expenses are great, and Litigation mutually inconvenient to all parties, and which we should have no reasonable prospect of seeing closed in our day.

The citizens will readily perceive, that with the view the heirs have of the case, it would become the duty of such of the heirs as are able, to support the interest of the rest and maintain their rights, by seeking protection in every fair and legal way in every Court of the State and of the United States, that could be re sorted to.

It would afford the heirs great satisfaction could an amicable arrangement take place to accomplish so desirable an object, and give satisfaction to the citizens, they would cheerfully pay something to be applied in the manner named in the bequest.

If the Town Meeting approve the measure and will appoint a Special Committee of intelligent citizens, I will lay before them such vouchers and papers of the estate as they may request, with such evidence of facts, in my power, as they may deem usefull and request, whether for or against our interests, to enable them to come to a fair and Just conclusion, the submission to be without prejudice to either party, should a compromise not take place.

The Committee to be vested with power to make a final settlement, or merely to report the terms agreed on, to a subsequent Town Meeting, for acceptance or rejection, as the Citizens may deem most advisable.

Very Respect'ly,
N. LONGWORTH.

Whereupon the said communication being read to the meeting it was, on motion,

Resolved, That a Committee of Seven be appointed by this meeting to confer with the heirs of said Jabez Longworth, deceased, upon the subject of the bequest contained in said will in favor of poor Orphan children of the Township of Newark.

Resolved, That it shall be the duty of the Town Committee upon the request of the Committee above appointed, to call a special Town Meeting in the manner directed by Law, for the purpose of receiving and acting upon their report, and that they do then make report to such special Town Meeting.

Resolved, That Isaac Andruss, James Tichenor, David Doremus, Amzi Dodd, Silas Condit, Asa Whitehead, Samuel Pennington do compose said Committee.

Resolved, That the Sexton be paid Ten Dollars for cleaning this House.

Resolved, That the election for Town Officers at the next annual Town Meeting shall be by ballot.

Resolved, That Isaac Andruss, C. T. Shipman, Rodney Wilbur, Geo. W. Campbell and David Doremus, be a Committee to select a more suitable spot than that next to S. Roff's, for a Town House, and report to a Special Town Meeting.

Resolved, That the next Annual Town Meeting be held in this place at (10) ten o'clock A. M.

Adjourned.

SAM'L PENNINGTON, Chairman.

OFFICE HOLDERS,

FROM THE SETTLEMENT OF THE TOWN UNTIL ITS INCORPORATION IN 1713.

*** A dash between the dates indicates that the person appears to have deen re-elected annually during the intervening period, but it is evident that re-elections must frequently have taken place without any record having been made of the fact.

Some of the offices were of a temporary character, and others seem to bave been created, suspended, revived or abolished, as the circumstances of the town required, without any official entry being made of the change. This will account for the want of continuity that will be observed in several offices.

The manner of spelling many of the names differed at different periods.

INDEX.

*** References to the pages on which appointments to the regular town offices are recorded, have not been inserted in this Index. The names of those holding office prior to the obtainment of the Town Charter in 1713 are given in the Appendix. Office appointments after that time it was thought unnecessary to refer to particularly, as they were made annually with great regularity, and the recapitulation of so large a number of names would have unnecessarily increased the size of the volume.

A dash between the figures indicates that the name or subject is mentioned on each of the intervening pages.

Differences in the mode of spelling a name have sometimes been pointed out.
